

Technical Panel
of the
Nebraska Information Technology Commission

DRAFT RESOLUTION

February 13, 2001

Pursuant to Section 81-2604 (4), the Technical Panel of the NITC requests that the GIS Steering Committee recommend standards and guidelines in the following areas:

- land record modernization
- GIS metadata standards
- database development
- internet access to GIS data and attributes from multiple sources,
- including use of interactive mapping technologies
- development of a statewide GIS
