Subject: Acceptable Use Policy - State Data Communications Network

Standards and Guidelines

The [Technical Panel](#) is accepting comments on the following draft standards and guidelines:
- [Acceptable Use Policy - State Data Communications Network](#) (State Government Agencies)

<<9. To communicate to children at home, teachers, doctors, day care centers, and baby sitters, to family members to inform them of unexpected schedule changes, and for other essential personal business. The use of the State's telecommunications systems for essential personal business shall be kept to a minimum and shall not interfere with the conduct of state business.>>

Do the changes allow for the use of other messaging tools such as Instant Messaging?
