

May 21, 2003

Dear York County Resident:

Five Years ago the York County Information Technology Committee conducted a survey of residents in York County to determine the current and future technology needs for the York County Community. Technology has seen tremendous changes in the past five years, so we've decided to again conduct a survey to determine the current use of technology, and try and find the future training and information needs of our community.

Please take a few minutes to complete this survey and return it to our office in the enclosed self addressed envelope. We have sent this survey to a random sampling of 600 households in York County. **We would like to have all surveys returned by June 6, 2003 so that we can get them tabulated.**

ALL RESPONSES WILL BE KEPT CONFIDENTIAL AND ONLY SUMMARY DATA WILL BE SHARED.

If you have any questions contact me at 402-362-5508 or gzoubek@unl.edu or Norene Fitzgerald at 402-362-3333 or at ydcnf@alltel.net.

This assessment will help the Technology Committee determine the future needs of our area and areas in which training is desired.

Sincerely,

Gary L. Zoubek
Extension Educator
