

# Memorandum

---

**To:** Crawford, Harrison Information Technology group  
**CC:** File  
**From:** Robert W. Oldfield  
**Date:** 12/12/2002  
**Re:** Results from IT (broadband) survey

---

## **Regarding the results of this survey**

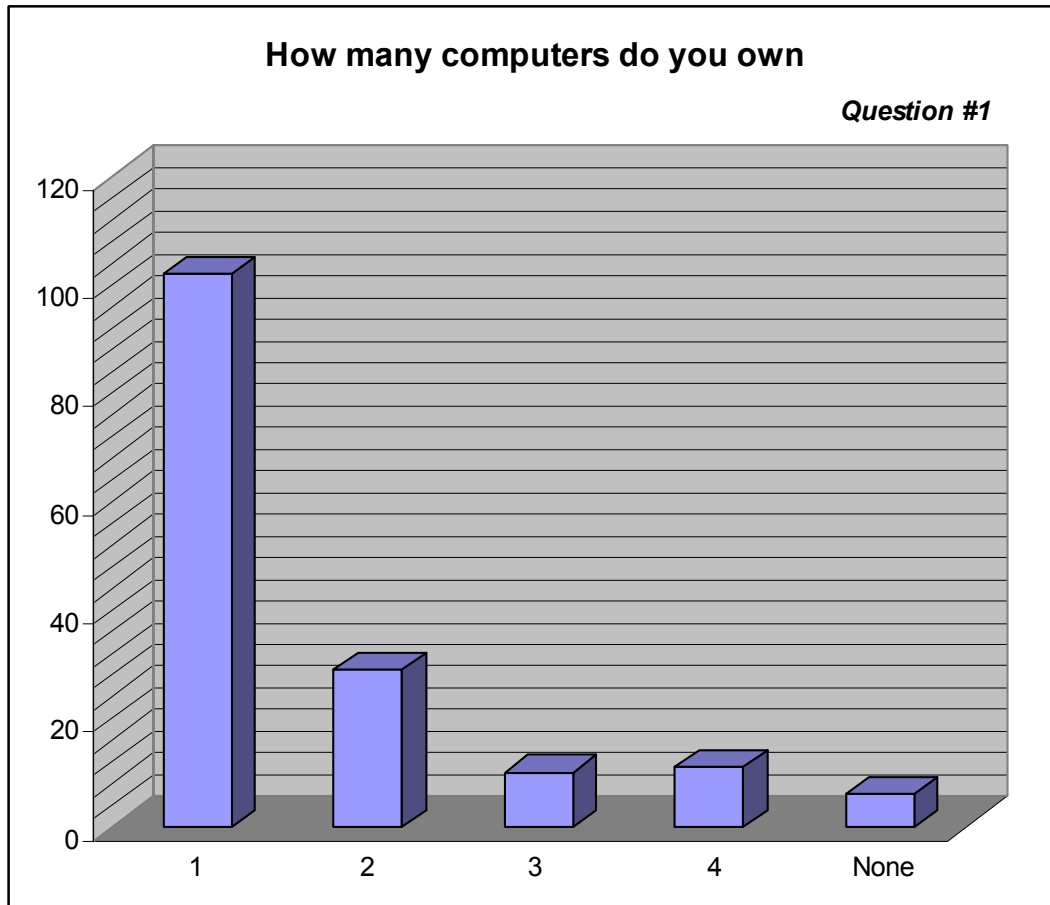

There are many conclusions that can be drawn from the results of this survey. The most apparent result of the data shows there is a lot of interest in broadband from business to individuals. Subsequent interviews with several businesses show that broadband is not only needed but mandated in the near future. I am both pleased and surprised that we received such a large number of returns. Attached to this Memo are the results of this survey. The total number of returned surveys is 159. I am still receiving surveys almost everyday but I believe that we have 99% or what we will receive. If you have any questions about this survey please feel free to contact me or someone from our group listed below.
